THE Most Consequential Christian/Political Book of this Time:

“POWER OF THE KINGDOM”

Premiere Book Launch

Our country is under assault from dark forces within. Christians can as a whole overcome these forces but we must act intelligently and we must act now or risk losing this country.

Biblically founded, Power of the Kingdom presents to Christians why we must get involved with politics and governmental affairs because this is where the battle is being fought for the control of this nation and the world.

Most Christians are not equipped for spiritual battle. Power of the Kingdom explains what and where the kingdom is. And how Christians can move from the sidelines and get involved right now.

From victims to victors: why we must educate ourselves as to the underlying forces that are controlling what is manifesting in our society and how to fight for the Kingdom of Heaven and change the world.

This book is the tool box for Christians for dealing with and overcoming the carnal minded masses who are attempting to destroy the Christian foundations of this country.

Power of the Kingdom presents a very valid reality: that the Kingdom is not in some faraway place cast off from the world we live in.

This book presents a foundation from which teaching, living and manifestation of our Christian faith should be realized.

At its birth the United States was the first historical example of the Kingdom coming into a physical government. This is the reason why the United States is great. This book shows how we have come to this point as a nation and how and what we need as individuals and collectively to make America a great Christian nation again.

This book is a message to world leaders and to those of us not yet sure of our role in the present unfolding of God’s purpose for us.

Power of the Kingdom explains what the Kingdom of Heaven is, how it manifests and the important rights and institutions we need to stand up for. This book lists where the warfare is happening and equips the reader to take action in the specific institutions the enemy has eroded and threatens to take away.
